Specifications

Flexible Solar Sheet	Specifications
Material	Amorphous Silicon
Maximum power generation capacity	10.8W
Maximum output power	9.5W (5.0V x 1.90A)
Dimension	L915m x W250mm
Thickness	1mm (except USB Box)
Weight	About 240g
Operation Temperature	0°C ~ 60°C
Waterproof	IP65 (except USB box)

LED Lantern	Specifications
Number of LEDs	4w 16LEDs(COB)
Lighting Mode	Super bright light mode (24lm, 9 hours) Medium bright mode (64lm, 30 hours) Blinking mode (200lm, 100 hours)
Latium-ion battery	5200mAh
Size (without hook)	Diameter 80mm x Height 60mm
Weight	160g
